📁 Portfolio

Profile

Aspiring Data Engineer with hands-on experience building batch and real-time data pipelines using modern data stack technologies. Skilled in Python, SQL, Snowflake, Airflow, and dbt for designing scalable data workflows, performing data transformations, and enabling real-time analytics. Passionate about building efficient data systems, handling large-scale datasets, and delivering actionable insights through data-driven solutions.

Education

University of Colombo School of Computing, Sri Lanka May 2023–May 2026
B.Sc. in Computer Science
Current GPA – 3.32/4.00

Vishvoda College, Kurunegala 2019–2021
G.C.E. A/L 2021 - Combined Mathematics: A, Chemistry: B, Physics: B

Kavisigamuwa Central College 2013–2018
G.C.E. O/L 2018 - 6 As & 3 Bs

Experience

Intern Software Engineer - Effective Solutions (Pvt) Ltd November 2025–Present

- Contributing to the full stack development of the Jendo healthcare mobile application using React Native, Spring Boot and PostgreSQL. Managing complex API integrations and implementing secure, role based authentication to ensure data integrity and compliance. Designed the mobile application UI/UX using Figma, maintained comprehensive technical documentation and handled server side updates.

Development Projects

Real-Time E-Commerce Order Stream Monitor February 2026–March 2026

- Developed a production-grade real-time data pipeline streaming e-commerce orders into Snowflake with under 90-second latency by leveraging Snowflake Streams for CDC, Tasks for automated processing, and Dynamic Tables for real-time aggregations, powering a KPI dashboard in Snowsight with updated business metrics.

Python, Snowflake, Snowflake Streams, Tasks, Dynamic Tables, Snowsight

GitHub: Real-Time Pipeline

NYC Taxi Data Engineering Pipeline January 2026–February 2026

- Built an end-to-end ETL/ELT pipeline processing 3M+ NYC taxi trip records by ingesting parquet data into a cloud warehouse, applying automated validation checks, transforming data using dbt into analytics-ready marts, and orchestrating workflows with Apache Airflow. Generated insights on demand patterns, trip distributions, and revenue trends through Looker Studio dashboards.

Python, Pandas, Supabase (PostgreSQL), dbt, Apache Airflow, Looker Studio, WSL

GitHub: NYC Taxi Pipeline

ArtAura – Digital Art Ecosystem (Backend & Data) June 2025–October 2025

- A unified platform connecting artists and buyers. Designed a normalized MySQL database schema to handle complex relationships between artworks, sales and user roles (Admin, Moderator, Buyer). Implemented RESTful APIs using Spring Boot to handle secure transactions and data retrieval.

Java (Spring Boot), MySQL, React, Tailwind CSS

GitHub: ArtAura

Calliera – Real-Time Data Processing Platform

June 2025–July 2025

- A real-time language exchange platform utilizing MongoDB for flexible data storage of user profiles and chat history. Integrated Stream SDKs for handling real-time video/audio data streams and managing concurrent user sessions efficiently.

Node.js, Express, MongoDB, TanStack Query, React

GitHub: Calliera

UniQuest – University Job & Internship Portal

July 2024–April 2025

- Developed a centralized database for internship listings and student profiles. Implemented role-based access control and CRUD operations for efficient data management.

PHP, MySQL, HTML, CSS, JavaScript

GitHub: UniQuest

Certifications & Digital Badges

Data Engineer Associate certificate 2026

- DataCamp Certified - Validated expertise in SQL for data analysis, database management, and optimizing ETL/ELT workflows.

Data Engineer certificate 2026

- DataCamp Certified - Developing automated ingestion scripts and data cleaning pipelines using Python.

Skills

Programming: Python, SQL, Scala, Java

Data Engineering: ETL/ELT Pipelines, Data Warehousing, Data Modeling, Data Cleaning, Batch Real-Time Processing

Tools & Technologies: Snowflake, dbt, Apache Airflow, Pandas, Supabase

Databases: PostgreSQL, MySQL, MongoDB

Visualization: Looker Studio, Snowsight

Other: Git/GitHub, Linux (WSL), REST APIs

Extracurricular Activities

Rotaract Club of University of Colombo School of Computing

2023–2024

Club Member – Community Service Avenue
